STUDENT SATISFACTION SURVEY

SESSION—2021-22

Pandit Raghunath Murmu Smriti Mahavidyalaya

[UG and PG College]

A Govt. Aided and NAAC accredited Institute

STUDENTS SATISFACTION SURVEY [SSS] SESSION 2020-21

INTRODUCTION:

The Indian higher education system is the third largest in the world. The higher education institutions are governed by the norms set by the affiliating University based on the guidelines provided by the University Grant Commission (UGC). National Assessment and Accreditation Council (NAAC) has been established to strengthen the education system, to ensure complete transparency, to stimulate the academic environment for promotion of quality of teaching-learning and research in higher education institutions (HEI).

Students are the most important stakeholders of any educational institution. Along with students' progression and placements one of the main indicators of a college's progress is the students' level of satisfaction. In India HEIs are not only imparting the required skills and improving the abilities of their graduates but are also concentrating to gratify students' feelings about their scholastic experiences in the institution. There is emphasis on primary activities such as teaching learning, evaluation, research, extension activities, innovation along with emphasis on infrastructure facilities, quality of services, welfare measures for students and staff and overall satisfaction. of overall educational experience.

The vigorous, efficacious and value predicated scholastic system is the backbone of any nation. To progress in the right direction complete knowledge of student diversity, socio economic status, expectations and academic preferences are very useful parameters.

The gratified individual will have greater efficiency and will contribute to further progress of the institution and nation at large. Students who are studying in a higher educational institution seek more quality education and perfection of the system, in terms of approachability of the place, good infrastructure, quality education system, services offered by the institution, additional inputs in the form of value addition and employability enhancement courses etc. As stated by Usman (2010) the infrastructure facilities are becoming important, because these facilities satisfy student's perception, esteem and develop them with all the essentials and capabilities to be an efficacious learner.

HEI's all across the world are increasingly vying for students on a national and international level. They strive to improve student satisfaction to admit and retain students. This can only be accomplished

if all of the services that contribute to "academic life" are of sufficient quality. Students satisfaction can be defined as an attitude resulting from an assessment of students' educational experience, services and facilities provided by the institution. Because students are the important internal judges of performance of the institute, student satisfaction surveys are important and help the HEI to improve and adjust accordingly in the landscape of higher education. It also provides satisfaction to the institute of offering quality education.

The IQAC of PRMSM initiated a step to measure the student satisfaction survey in the year 2017 as per its road map. A questionnaire was developed and necessary changes are made in consultation with the experts suiting to the needs of the university and the same was adopted.

Objectives of Student Satisfaction Survey

- To know the holistic view about the satisfaction level of the pass-out students of each programme on the basis of mentioned defined parameters.
- To evaluate the success and weak spots of the programme
- To ascertain any concern for any specific learning environment
- To determine the response to the applicability, implementation and execution of different activities organized by Clubs and
- To invite suggestions for further improvement measures so as to bring holistic improvement in the requisite

QUESTIONNAIRE FOR STUDENT SATISFACTION SURVEY SESSION – 2020-21

Students are asked to fill the following feedback form on infrastructure, teaching learning, library and other facilities provided by the college. There are twenty four (24) questions with five options each. Students are asked to tick only one option which they feel is suitable for a particular question. They must not write their name, UID or anything that may be used to identify them. Only following information regarding them is needed.

Course: UG/PG

Semester:

Stream

Q1. Are you satisfied with the overall Teaching-Learning process of the college?

- Very Satisfied
- Moderately Satisfied
- Somewhat satisfied
- Not satisfied
- Do not Know

Q2. Coverage of the syllabus

- Adequate
- Above average
- Average
- Below average
- Not satisfactory

Q3. Is the courses studied by you have enhanced your knowledge, skills and capabilities?

- Strongly Agree
- Agree
- Not sure
- Do not Agree
- Do not Know

Q4. The teachers' approach to teaching

- Excellent
- Very good
- Good
- Average
- Not satisfactory

Q5. Teachers' command over the subjects they teach and overall class performance

- Excellent
- Very good
- Good
- Average
- Not satisfactory

Report of the feedback of the students on infrastructure, teaching learning, library and other facilities provided by the college.

As per the guidelines provided by the National Board of Accreditation Council (NAAC), the Internal Quality Assurance Cell (IQAC) of Pandit Raghunath Murmu Smriti Mahavidyalaya collected feedback from the students for the year 2020-21 on infrastructure, teaching learning, library and other facilities provided by the college. About 341 students provided feedback. After analysing the feedback, necessary actions are taken to improve the teaching learning process and other facilities provided by the college. As a whole, the following summary can be obtained about the students' feedback on infrastructure, teaching learning, library and other facilities provided by the college.

Let us first highlight those points where vast improvement is observed as part of action taken exercise after the pandemic.

- Mainly in two aspects of the administration a vast improvement is observed.
 - I. The interpersonal relationship between the students and the office and library staff.
 - II. Improvement in the drinking water and sanitation facilities.
 - III. Improvement in cleanliness of the college campus

The institute has to resort to various external agencies to improve the facilities after the Covid-19 pandemic. Frequent sanitization and cleaning has become part and parcel of the campus.

Also the teaching, office and library staffs were specifically instructed to help the students in every aspect of their teaching learning process as the pandemic has taken a toll to the mental health of every individual.

The opportunities provided by the college in participation of field work, projects, sports and cultural activities remains top class and the students were very happy about it. As part of the procedure, the college authority, with the help of IQAC has given special emphasis to these extra-curricular activities. The students are encouraged to participate more in this kind of completion so that their pandemic related lethargy can go away.

- IV. The scholarship provided to the students remained one of the top priorities on the part of the administration of the institute. And students were very happy about it.
- V. The college authority given their best effort to improve the canteen facility.
- VI. The Grievance redressal cell of the college worked in war footing to address the grievances of the students immediately.

Despite these efforts there are still lags in certain aspects as the students feedback suggests.

In some cases the teaching learning efforts and use of technology had suffered due to pandemic. May be the motivational aspects of the faculty community has fallen behind this year due to less participation of the students in the academic activities. The examination system has also undergone quite a change and students had to adapt to the online examination process. That may be caused a lack of transparency in the examination system. Also students were not very satisfied with the internal assessment process. Sometimes the communication between the faculties and students were at a low because of pandemic induced differences. Also the lack of internet facility, Covid-19 provoked fear, depleted mode of transportation are the reasons behind the deterioration of certain points of feedback.

CONCLUSION -

The students' satisfaction and the whole exercise is an innovative method to obtain students' feedback on their academic experience, perceptions and expectations from the higher education institution and finally to assess their satisfaction level. It contributes in understanding student's perception, likes and dislikes and more importantly which educational experience they think of as the most important and which facilities require improvement. The method devised to obtain feedback of students of HEI is very innovative, generic, flexible and easy to adopt by any higher education institution. The questions can be changed and altered based on the requirements of the institution. Various interpretations can be obtained using this technique.

One survey analysis is capable of highlighting many parameters and aspects of higher education institutions. This analysis helps us in determination of parameters which require higher levels of improvement and changes to offer students greater levels of satisfaction. It also helps us in assessing the parameters, where institutions are strong and which can become their strengths. It provides information about actions that can be taken to maintain high levels of satisfaction and improve student learning experiences in the institution. Higher satisfaction level will definitely contribute to better outcomes.

Each question in the questionnaire highlights different aspects of an underlying perception. If few questions are combined together and even Likert scale is used, a reasonably accurate measure of the satisfaction can be obtained and effectiveness of that parameter can be analyzed easily. For instance, Teacher quality in imparting curriculum and giving extra inputs and effectiveness of library services is analyzed in the observation. If this method is used on a regular basis it may provide many insights into satisfaction level of students, changes in student priority, Quality of teachers, factors that really contribute to students' satisfaction. The study also emphasizes that there is a need to make students aware of objectives and intended learning outcomes. It can help administrators to understand the relative importance and accordingly plan improvement in facilities and resources.

The method developed is a useful tool for selecting the most efficient parameters which help in improvement of experience, which leads to satisfaction. The facilities and services of organizations can then be improved to maximize efficiency. This study presents an easy, reliable and complete quality assessment method to obtain student feedback with no additional cost for any software purchase or training.
