INTRODUCTION:

The celebration of International Women's Day is not only important but also necessary for several reasons:

1. **Recognition of Women's Achievements:** International Women's Day provides an opportunity to celebrate the social, economic, cultural, and political achievements of women around the world. It highlights the contributions of women in various fields and recognizes their accomplishments, often in the face of adversity and discrimination.
2. **Advancement of Gender Equality:** Despite progress in recent decades, gender inequality persists in many parts of the world. International Women's Day serves as a reminder of the ongoing struggle for gender equality and women's rights. It raises awareness about issues such as gender-based violence, unequal access to education and healthcare, and barriers to economic empowerment, fostering dialogue and action to address these challenges.
3. **Empowerment and Inspiration:** International Women's Day inspires women and girls to pursue their dreams, overcome obstacles, and achieve their full potential. It provides a platform for sharing stories of resilience, leadership, and empowerment, motivating others to take action and effect positive change in their own lives and communities.
4. **Solidarity and Unity:** International Women's Day brings together individuals, organizations, and communities from diverse backgrounds to stand in solidarity with women and girls worldwide. It promotes unity and collaboration across borders, cultures, and generations, emphasizing the importance of collective action in advancing gender equality and women's rights.

5. **Policy Advocacy and Social Change:** International Women's Day amplifies advocacy efforts and mobilizes support for policies and initiatives that promote gender equality and women's empowerment. It provides an opportunity to lobby governments, policymakers, and institutions for legislative reforms, investment in gender-responsive programs, and the implementation of international commitments such as the Sustainable Development Goals.
6. **Reflection and Renewed Commitment:** International Women's Day encourages reflection on progress made towards gender equality and the work that remains to be done. It prompts individuals and organizations to recommit themselves to the cause of women's rights, reevaluate strategies, and take concrete steps to accelerate progress towards a more inclusive and equitable society.

They play a crucial role in preventing diseases, detecting health conditions early, reducing health disparities, and promoting health equity.

Health awareness programs also contribute to stigma reduction, public health preparedness, and the creation of supportive environments for health. They have the potential to generate long-term cost savings by reducing the burden of preventable diseases and healthcare expenditures.

REPORT

Dengue is a mosquito-borne viral infection prevalent in tropical and subtropical regions worldwide. It is caused by the dengue virus, which is transmitted mainly by *Aedes aegypti* mosquitoes. Symptoms range from mild fever to severe flu-like symptoms and, in severe cases, can lead to dengue haemorrhagic fever or dengue shock syndrome, both of which can be fatal.

Necessity of Dengue Awareness program:

- 1. Prevention and control:** Awareness programs educate the public on preventive measures such as eliminating mosquito breeding sites, using mosquito repellents, and wearing protective clothing. Knowledge about these practices is crucial to control the spread of the virus.
- 2. Early Detection and Treatment:** Educating communities about the symptoms of dengue encourages early medical consultation, which can prevent complications and reduce mortality rates. Awareness programs also inform about the importance of hydration and medical care.
- 3. Reducing Economic Burden:** Dengue outbreaks can lead to significant healthcare costs and economic losses due to decreased productivity. Awareness programs can help reduce these financial burdens by preventing large-scale outbreaks.
- 4. Community Involvement:** Effective dengue control requires community participation. Awareness programs can mobilize communities to take collective action, such as community clean-up drives to eliminate stagnant water where mosquitoes breed.
- 5. Public Health Improvement:** These programs contribute to overall public health improvements by promoting general hygiene and environmental health practices that benefit the community beyond dengue prevention.

Key Components of Dengue Awareness Program:

- 1. Educational Campaigns:** Dissemination of information through posters, pamphlets, social media, and public service announcements about dengue transmission, symptoms, and preventive measures.
- 2. School/College Programs:** Integrating dengue education into school curricula to teach children about the importance of mosquito control and personal protection.
- 3. Community Workshops:** Organizing workshops and seminars in communities to demonstrate practical measures for mosquito control and to provide health education.
- 4. Health Worker Training:** Training healthcare professionals to recognize dengue symptoms early and to manage cases effectively, including the proper protocol for severe cases.
- 5. Collaboration With Media:** Partnering with local media to spread awareness messages widely and consistently, especially during peak transmission seasons.
- 6. Use of technology:** Leveraging mobile apps and SMS services to send reminders and information about dengue prevention and outbreaks to the public.

Some photosOf the Programme.

CONCLUSION:

Dengue awareness programs are essential to mitigate the impact of dengue fever on public health. By educating communities, promoting preventive measures, and facilitating early detection and treatment, these programs can significantly reduce the incidence and severity of dengue outbreaks. The collective effort of individuals, communities, healthcare providers, and governments is crucial in combating this disease effectively.

REPORT

Swachh Bharat Abhiyan (Clean India Mission) is a nationwide campaign initiated by the Government of India in 2014, aiming to clean up the streets, roads, and infrastructure of India's cities, towns, and rural areas. The mission emphasizes improving sanitation, eliminating open defecation, and promoting sustainable waste management practices. It was launched to commemorate the 150th birth anniversary of Mahatma Gandhi, who advocated for cleanliness and sanitation.

Necessity of Swachh Bharat Abhiyan:

- 1.Reduction of Open Defecation:** Open defecation poses significant health risks, including the spread of infectious diseases and contamination of water sources. The mission aims to eliminate open defecation by constructing toilets and promoting their use, which is crucial for public health and dignity.
- 2.Environmental Protection:** Unmanaged waste leads to pollution of land and water bodies. By promoting waste segregation, recycling, and proper disposal methods, Swachh Bharat Abhiyan helps protect the environment and promotes sustainable practice
- 3.Economic Benefits:** Improved sanitation leads to a healthier population, which in turn can reduce healthcare costs and increase productivity. Cleanliness also boosts tourism, as cleaner cities and tourist spots are more attractive to visitors.
- 4.Behavioural Changes:** The mission emphasizes changing attitudes towards cleanliness and sanitation through education and awareness campaigns. Encouraging personal responsibility for cleanliness can lead to long-term societal benefits.
- 5.Public Health Improvement:** Poor sanitation is a leading cause of diseases like diarrhoea, cholera, and dysentery, particularly affecting children. Improved sanitation facilities reduce the prevalence of these diseases, contributing to better overall public health.
- 6.Community empowerment:** Involving local communities in sanitation efforts empowers them to take charge of their environment. Community-led initiatives and participation ensure the sustainability of cleanliness efforts.

Aims and Objectives of Swachh Bharat Abhiyan:

- 1.Construction of Toilets:** Building household and public toilets to eliminate open defecation, particularly in rural areas and urban slums.

2.Solid Waste Managements: Establishing systems for waste segregation, collection, transportation, processing, and disposal. Promoting composting, recycling, and reduction of plastic use.

3.Public Awareness Campaigns: Conducting educational programs to raise awareness about the importance of cleanliness and hygiene. Using media, school programs, and community workshops to spread the messages.

4.Behavioural Changes communication: Encouraging behavioral changes through initiatives like the “Swachh Bharat Ambassadors” program, where public figures and community leaders promote the importance of sanitation.

5.Involvement of Technology: Utilizing technology for monitoring and managing waste, as well as for spreading awareness through digital platforms.

6.Corporate and NGO Participation: Encouraging partnerships with businesses and non-governmental organizations to support sanitation projects and contribute resource.

CONCLUSION:

Swachh Bharat Abhiyan is a crucial initiative for improving sanitation and hygiene in India. Its success hinges on the active participation of all sectors of society, including government, communities, businesses, and individuals. By addressing the critical issues of waste management and open defecation, the mission aims to create a cleaner, healthier, and more sustainable environment for future generations. The long-term benefits of this initiative, such as improved public health, environmental protection, and economic gains, underscore its importance for the nation's development.

Overview on Swachh Bharat Abhiyan:

Swachh Bharat Abhiyan (Clean India Mission) is a nationwide campaign initiated by the Government of India in 2014, aiming to clean up the streets, roads, and infrastructure of Indians' cities, towns, and rural areas. The mission emphasizes improving sanitation, eliminating open defecation, and promoting sustainable waste management practices. It was launched to commemorate the 150th birth anniversary of Mahatma Gandhi, who advocated for cleanliness and sanitation.

Necessity of Swachh Bharat Abhiyan:

1. **Reduction of Open Defecation:** Open defecation poses significant health risks, including the spread of infectious diseases and contamination of water sources. The mission aims to eliminate open defecation by constructing toilets and promoting their use, which is crucial for public health and dignity.
2. **Environmental Protection:** Unmanaged waste leads to pollution of land and water bodies. By promoting waste segregation, recycling, and proper disposal methods, Swachh Bharat Abhiyan helps protect the environment and promotes sustainable practice.
3. **Economic Benefits:** Improved sanitation leads to a healthier population, which in turn can reduce healthcare costs and increase productivity. Cleanliness also boosts tourism, as cleaner cities and tourist spots are more attractive to visitors.
4. **Behavioural Changes:** The mission emphasizes changing attitudes towards cleanliness and sanitation through education and awareness campaigns. Encouraging personal responsibility for cleanliness can lead to long-term societal benefits.
5. **Public Health Improvement:** Poor sanitation is a leading cause of diseases like diarrhoea, cholera, and dysentery, particularly affecting children. Improved sanitation facilities reduce the prevalence of these diseases, contributing to better overall public health.
6. **Community empowerment:** Involving local communities in sanitation efforts empowers them to take charge of their environment. Community-led initiatives and participation ensure the sustainability of cleanliness efforts.

Aims and Objectives of Swachh Bharat Abhiyan:

1. **Construction of Toilets:** Building household and public toilets to eliminate open defecation, particularly in rural areas and urban slums.

2. **Solid Waste Managements:** Establishing systems for waste segregation, collection, transportation, processing, and disposal. Promoting composting, recycling, and reduction of plastic use.
3. **Public Awareness Campaigns:** Conducting educational programs to raise awareness about the importance of cleanliness and hygiene. Using media, school programs, and community workshops to spread the messages.
4. **Behavioural Changes communication:** Encouraging behavioral changes through initiatives like the "Swachh Bharat Ambassadors" program, where public figures and community leaders promote the importance of sanitation.
5. **Involvement of Technology:** Utilizing technology for monitoring and managing waste, as well as for spreading awareness through digital platforms.
6. **Corporate and NGO Participation:** Encouraging partnerships with businesses and non-governmental organizations to support sanitation projects and contribute resources.

REPORT

Pandit Raghunath Murmu Smriti Mahavidyalaya has organized a Gardening programme on 5th August, 2018 with collaboration with department of Forestry. The lighting of lamp and offering of wreath was started by Dr. Kuntal Kanti Chattaraj followed by Bursar Mr. Tapas Halder and all other teachers, staff and students of the college. The TIC of PRMS Mahavidyalaya Dr. Kuntal Kanti Chatteraj provided a lecture about Gardening. Dr. Subhasis Mahata(HOD, Forestry department of PRMSM) delivered a special talk regarding this matter and he encourage the students for rapid gardening.

OBJECTIVES:

Gardening in our college campus can be both productive and nonproductive. But it's a choice. In a single day, most students spend almost 50 per cent of their time daily at the college campus. Therefore, it's essential to make the campus more live able and greener. A garden with a proper design has enormous benefits towards college residents or students. As the college campus consists of a huge area, there are lots of unused places or roadsides at the college campus which can be a good choice for planting trees. It will supply more oxygen to the environment, keep the air fresh and remove the monotony of the students as well as teachers.

OUTCOMES:

1. The volunteers have gained knowledge about the environment.
2. The volunteers inspired in model campus gardening.
3. They know about student's role in gardening activities.
4. Volunteers aware about the importance of green campus model.
