Details of infrastructure facilities in order to strengthen teaching-learning process of P.R.M.S. Mahavidyalaya

Keeping in mind, the value and significant of physical facilities and infrastructural setup in the all-round development of a Higher Educational institution, PRMS Mahavidyalaya is very cautious and take necessary steps time to time. The College, at present, has 63 class rooms, one laboratory each for Department of Computer Science, Geography, Geo-Informatics, Physics and Chemistry, about 57 computers for academic purposes and 15 computers for the administrative purposes- these are in proper running condition and is able to facilitate the need in the concerned field. The College also have language laboratory in which the students are provided with guidance in order to make their communication skill upgraded. The teachers adequately make proper use of the ICT facilities available in the institution. The Class rooms are simultaneously used for remedial classes. The Central Library of the College, spread over about ten thousand square feet is a noteworthy part of the academic infrastructure which is well equipped with around twenty-one thousand books, fourteen journal, two no's of digital database etc which offers students ample opportunities to go with texts along with references. The larger reading room place is also quite in tune with the demand on part of the students. Some photographs of the different parts of this institute are given below:

What is ArcGIS?

ArcGIS is a comprehensive geospatial platform for professionals and organizations. It is the leading geographic information system (GIS) technology. Built by Esri, ArcGIS integrates and connects data through the context of geography. It provides world-leading capabilities for creating, managing, analyzing, mapping, and sharing all types of data. Organizations that use ArcGIS to understand and analyze their data in geographic context have a distinct advantage and decision-making edge.

How ArcGIS Works

With a comprehensive set of capabilities, multiple deployment options, and a well-architected framework as its foundation, ArcGIS fits seamlessly into enterprise tech stacks.

ArcGIS is proven technology

Esri develops ArcGIS based on insights from customers who have experienced transformational impact. Continual advancement of the technology and capabilities is influenced directly by customers' evolving needs. On this foundation, organizations can support extensive business and mission systems across the enterprise.

Capabilities

Discover the potential of your imagery

ERDAS IMAGINE simplifies image classification and segmentation, orthorectification, mosaicking, reprojection, elevation extraction and image interpretation.

Streamline your workflow and save time

Powerful algorithms and data processing functions work behind the scenes so you can concentrate on your analyses.

Multiple classification solutions

ERDAS IMAGINE offers K-Means, ISODATA, object-based image segmentation, Machine Learning and Deep Learning Artificial Intelligence algorithms.

The power of Spatial Modeler

The Spatial Modeler's graphical editing environment provides flexibility to capture domain expertise and turn it into re-usable algorithms.

Point cloud processing

ERDAS IMAGINE fully enables the display, editing and analysis of point clouds derived from LiDAR or point correlation of stereo pairs.
