DVV Clarification

7.1.2. The Institution has facilities and initiatives for

1. Alternate sources of energy and energy conservation measures
2. Management of the various types of degradable and non degradable waste
3. Water conservation
4. Green campus initiatives
5. Disabled-friendly, barrier free environment

DVV CLARIFICATION SOUGHT

HEI is requested to please provide all the photographs geo tagged for the chosen options with proper caption, because provided photographs are not justifying the claim. 2. Kindly provide link to the policy documents of the institution. 3. Kindly provide bills for the purchase of equipments for the facilities created under this metric. 4. Kindly provide any other relevant proof for the selected options.

RESPONSE OF HEI

Geo-tagged photos of all the items have been meticulously captured and included in the documentation. Each item is accompanied by a detailed explanation, highlighting its significance within the context of our green initiatives. Furthermore, considerable effort has been made to emphasize the importance of these sustainability projects in our college. This includes outlining how each initiative contributes to our overall environmental goals, promotes ecological awareness among students, and enhances the campus's role as a model for sustainable practices. The geo-tagging ensures that the exact locations of these initiatives are documented, making it easier to track their implementation and impact.
